and medical care

HIGH PRECISION INJECTION MOULDS

Matrix was founded in 1974 in the **heart of the Pyrenees**. Located just 80 minutes' drive from **Barcelona (Spain)**.

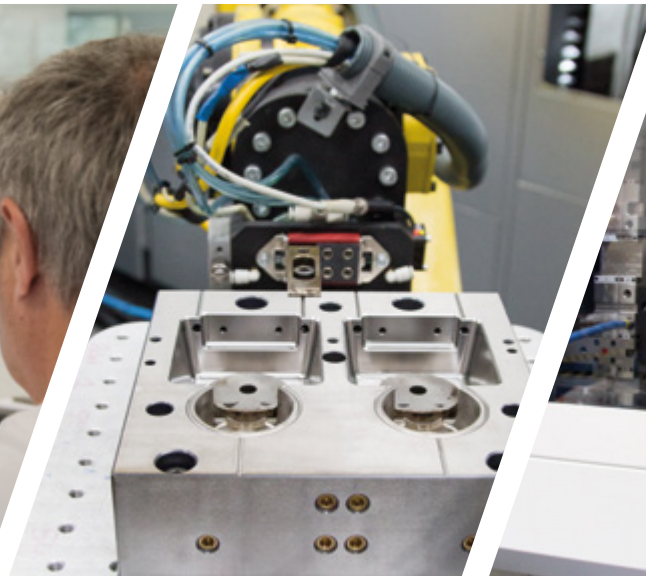

Matrix has 4,300m² facilities and 105,000 capacity hours per year and entirely climate-controlled. The main activity is to design and manufacture high precision and state of the art injection moulds with a workforce of 65 workers.

Our know-how and experience over the last 48 years allow us to provide our customers with the best and optimal moulding solutions to the most complex projects.

IN HOUSE PRODUCTION

TRIALS AREA

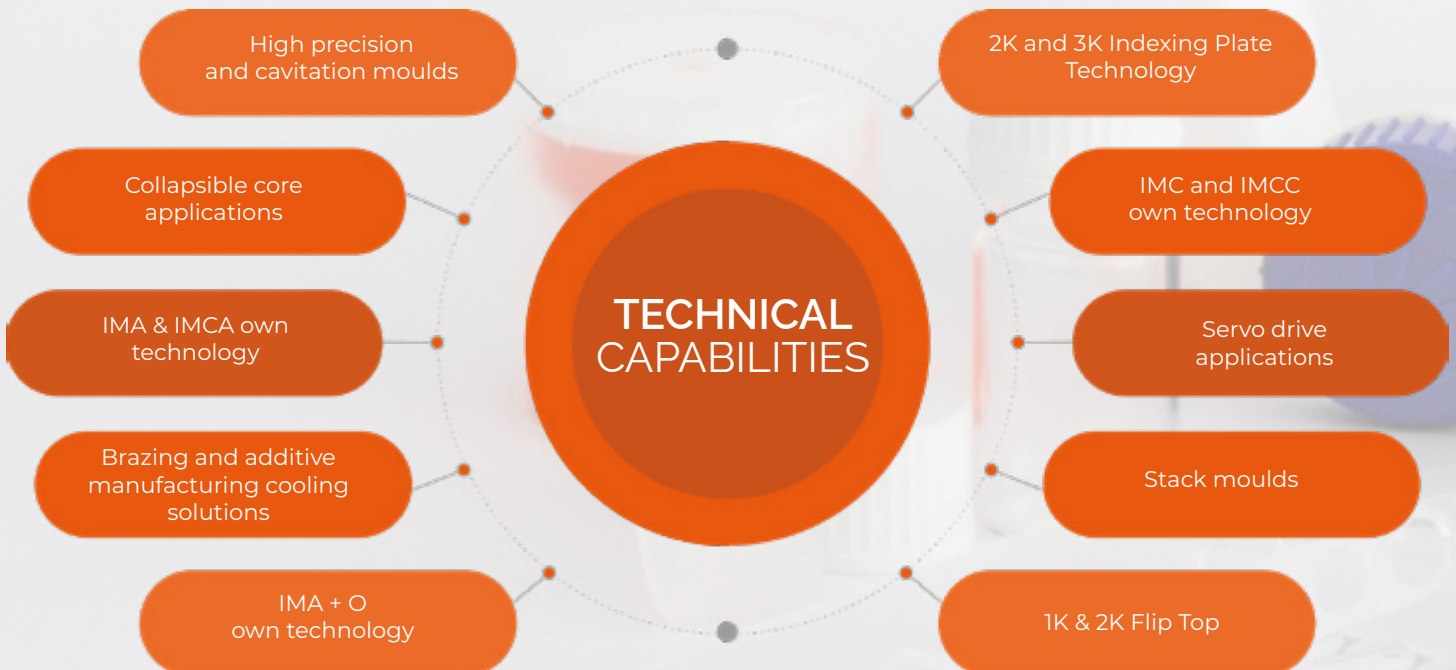

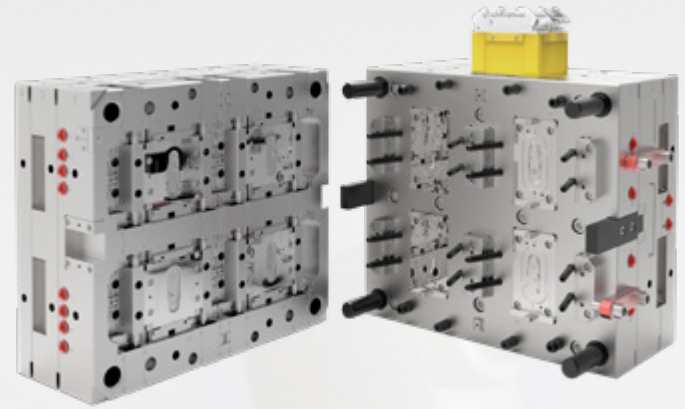

Mould maker of Voltaren's applicator
World Star Award

QUALITY DEPARTMENT

OUR TECHNICAL CAPABILITIES

In the wide-ranging of the mould making for thermoplastics, we are your innovative partner. Our high implication in the projects has enabled us to develop our first IMA+O (in moulding assembly and overmoulding) over the last 15 years , and recently we have created our own in mould cavity closing (IMCC) and in mould assembly (IMCA).

PROJECTS

24 CAVITIES INJECTION MOULD FOR GEL CARD FOR BLOOD RUNNING IN CLEANING ROOM

watch
how it works

We provide moulding solutions to our customers in order to improve their manufacturing time, cost, energy and efficiency. We specialize in the following sectors;

Pharma & Medical
Fragrances & Beauty care
Personal care
Food and Beverages
Home care

We provide
customized treatment,
always meeting our
costumers' needs.
It is not only our goal,
It is our duty.
